

UKOPA

United Kingdom Onshore Pipeline Operators' Association

UKOPA Emergency Preparedness Shared Learning Event

Competition Law Reminder

“This is a meeting of competitors and competition law must be strictly adhered to both during the meeting and any breaks. Discussion should be limited to the items on the agenda, which was circulated beforehand. There should be no discussion on sharing of commercially sensitive information such as price, costs, markets, investments. Should the discussion stray onto potentially sensitive topics you should object and insist that the discussion is immediately stopped.”

GDPR Reminder

Is everyone happy:

- With their name being added to the minutes?
- Their photos being taken and possibly used in social media and website posts

UKOPA Overview

- UKOPA is an industry group comprised of UK onshore pipeline operators
- UKOPA exists to provide the recognised and authoritative view of UK pipeline operators on strategic issues relating to safety management, operations and integrity management of hydrocarbon pipelines. It seeks to effectively influence the development and implementation of pipeline related legislation and standards for the mutual benefit of all stakeholders
- Produces Good Practice Guides and Technical Bulletins and carries out research to support the industry

UKOPA – Overview

- Build on the good work already undertaken
- Raise the profile of the Working Group
- Keep pace with the outside world
