Dear Member,

Please find a copy of a self explanatory email from Roger Ellis regarding the above. As requested I will be including the subject as an item for discussion at the meeting on the 24th/25th September.

Regards,

Phill Jones.

Subject: FW: Pipeline repair Capability

Phill,

This is worth sharing with the members and suggest we make it an agenda item with a view to getting all the other companies to contribute and develop further. What we need is a UKOPA focal point or champion for this.

Subject: Pipeline repair Capability

Roger

It has been decided that the pipeline repair procedure, along with some other documents, that I was trying to put together will not form part of the new Downstream Oil Emergency Response Plan as it is more of a list of contacts and capabilities rather than a toll to be implemented. I have attached my basic listing which UKOPA may wish to adopt and build on. If you would like the back up documents I received please let me know.

Many thanks for your help.

Allan
