Subject: FW: Pipeline Operators Forum

Phill,

Could you please circulate to UKOPA members, some no doubt will already be aware of this forum, but the web site is new.

The Pipeline Operators Forum (POF) have developed a web site for common interests concerning pipeline integrity.

The POF consists of European Operators who meet on a yearly basis to discuss Pipeline Integrity Issues. Developments from the forum have included the POF specification, which is now adopted by all the leading Intelligent Pig suppliers as the standard reporting specification for Intelligent Pig Inspection reports.

Details of the Forum can be seen on the attached web address.

The web address is:- <http://www.pipelineoperators.org>
