Subject: British Wind Energy Association - Adoption of UKOPA guidelines on Separation Distances

UKOPA/07/0044

Phill,

The BWEA Health & Safety Steering Group reviewed your guidance on separation distances from pipelines and has concluded that these have been adopted as best practice for the wind industry. As such I wanted to inform you so you have record but also can you ensure that if/as/when this document is updated that you keep us informed?

Best regards

Graeme
