

Notes made from Jonathan Holvey HSE update

Oct 2019

Prepared by Nikki Barker

Points of note from Jonathan Holvey's HSE update – Members Meeting Oct 2019

- HSE has a new CEO Sarah Albon (from June 2019)
- Martin Temple (Chair) is carrying out a Strategy review and will be issued for Stakeholder consultation – needs to take account of the climate 2050 requirements and thus possible need for different policies to deliver
- CCS, H2 findings from Grenfeld (Building Safety Regulator) need to be taken into account
- HSE will need a different structure to deliver this
- Would like to work closely with stakeholders (UKOPA included) to ensure that all views are taken into account
